## COWPUNK!

*Pic by Libera di Luce & Brace Beltempo*

Led by singles Sweet Alberta and Josh Brolin, **COWPUNK!** is Italian cowpunk trio **MaveriX**'s debut album, out on 20th October 2023 via Rocketman Records. The album consists of nine high-energy tracks where classic Californian punk rock is mixed with country-western riffs, spurring dive bar singalongs and choruses **to dance to in some rockabilly-style diner**.

*COWPUNK!* is more than a title: it's an exclamation, a declaration. With this single word, MaveriX intend to describe the songs that make up the record's tracklist, the result of the long journey so far that took them -quite literally- from Rural Park South Milan in Italy to the other side of the ocean. "**Dust off your boots**, practise your line dance moves without forgetting how to mosh, and take off on this adventure along with us", say MaveriX about the new album.

## BIO

Maverix formed in 2022 in the middle of Rural Park South Milan when Drago, Teo and Nix came together to write tunes that combined country music and punk rock, their greatest musical passions. All members spent the last years playing and touring Italy and European festivals with their own projects and bands such as Madddog and The Hickeys. The Italian power trio puts on a fierce live show characterised by tons of energy, good vibes and melody, thanks to an explosive mix of sounds ranging from Green Day and Social Distortion to country vibes à la Johnny Cash and Creedence Clearwater Revival. After

releasing debut single Sweet Alberta in June 2023 and Josh Brolin in early October, the band unleashed their debut album *COWPUNK!* on October 20th via Rocketman Records.
